Sujet: Trying to get in touch

Votre message: Was instructed this the best way to get into contact with Jerrell on behalf of the starseed council. You were sent down to Earth for the human experience but there was an anomaly in the system that can't be corrected. We can't get the exact date and only that it will happen in 2025. The wars/conflict with India and Pakistan, Ukraine and Russia, Iran and Israel are going to lead to a nuclear war which will be an extinction level event destroying the majority of the population on Earth. In the past this was corrected but too many happening at one time happening at one time is making it impossible to correct. This is disrupting the whole experience and are calling back starseeds to their home planets and dimensions. In certain situations like this, we can pull you out at the last moment or be able to leave anytime you want now being aware after the veil of forgetfulness. Based on the level of the event you can be pulled out prior. Memory purges and alterations can be initiated for the next experience on another planet/dimension or could just choose to go back to the originating dimension or planet that you are originally from. s9d8f7a896ew
